2 · REGISTRATION FORM · COURSES SECTION

Choose up to 5 courses and schedules

A new "Courses" section sits after Emergency contact. Each row is one course: STCW courses show their open batches as cards with seats left; In-House courses show a start-date picker with the computed end date. The order rule is checked as the trainee picks.

Order rule: Crowd must start after the Safety date. Crisis must start after Safety and after Crowd (whichever are chosen). Dates that break the rule are greyed out with the reason, so they can't be picked. Tue, Oct 13 – Wed 14 Before your Safety date (Oct 19)

What stays the same

The Facebook instructions, contact details and the terms remain beside the pass, as today.

In the portal

Each course becomes its own application in Registration (Screening tab), already on the chosen batch or date, so staff only tick requirements and hand to the Cashier.

Checked again on submit

The server re-checks seats and the Safety → Crowd → Crisis order, so nobody can get around it by editing the page.
